

Educational

Advice from Jack Ma

- Enjoy making mistakes
- When you try it generates hope
- Never give up
- Finish something that you started
- Don't be scared of failure or setbacks
- Respect yourself!

- 20-30 mistakes (risk) explore
- 30-40 will you work for yourself or someone else
- 40-50 focus on the things that you are good at
- 50-60 work for the young people

Discussion

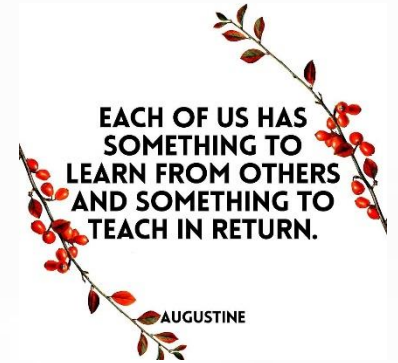

Focus will be on

- Not only IQ (intelligence), but also
- EQ (Ability to understand others)
- LQ (Care for other's success)

Spend time caring for and considering others!

I want those who may sometimes fail, learn from the mistake, get up and try again

Respect others, as they may have something that they can offer or teach you

Analyse any weaknesses (in area you enjoy) that you have, as this is hope, these are opportunities

Feel proud and honored when you are able to help someone

1. Any mistake is a wonderful revenue for you

?

2. The future is the competition of creativity / imagination / independent thinking

?

3. New technology will change every aspect of the world (share a piece of new technology)

?

4 Care about the success of others

?

5. Have you learnt anything from failure or rejection

?

6. Why does Jack Ma like the Forrest Gump movie

?

7. Who are the people that you can learn from (not only in your profession)

?

8. What can you contribute to others (everyone has something to teach)

?

Advanced Question Words

Beliefs

Have you been through any tough situations?

You must have a unique and different way

Create good circles

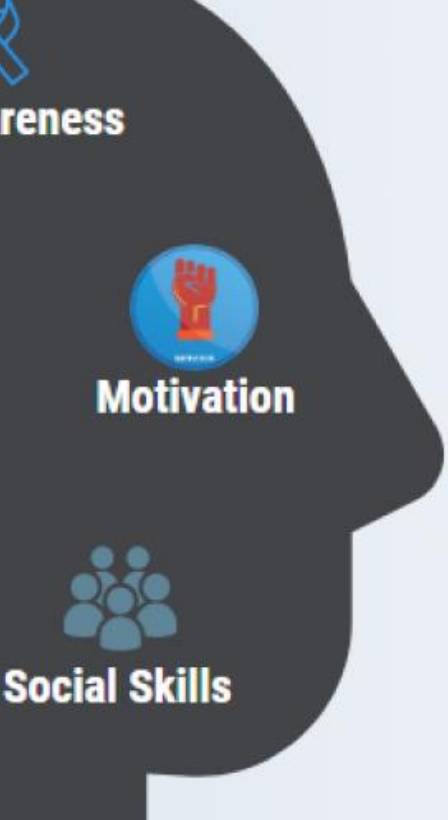

*Find
Dream the impossible dream*

Complaining does not solve any problems

Many of Jack Ma's investors were his students

Opportunities are found in the places where people complain.... Why? Give an example

What are you optimistic about?

Importance of Emotional Intelligence

“Once in your life, try something. Work hard at something. Try to change. Nothing bad can happen.” Jack Ma
